

neath my window by going down Jones Avenue it would be at the risk of their lives. I don't know whether you remember that little part how bad it is.

Q No, I don't.

A Well, it is very much of an incline and also very dangerous on account of roots and the other one being not quite so bad but it is never used by us at all; so that would show that in case they did go out I would have heard them.

Q Did you make any calls the night of the 14th, Thursday on any of your relatives in the immediate vicinity, to the Carpender's home or anywhere along there?

A In New Brunswick, no, sir, I don't remember.

Q Did you make any telephone call that night to the home of any friends in the vicinity?

A I don't remember it; I have no recollection of that at all.
